1. Qualitative Information on Quarterly Consolidated Financial Performance

(1) Explanation of Results of Operations

During the first nine months of the fiscal year ending March 31, 2019, the Japanese economy benefited from a favorable cycle as corporate capital expenditures increased and the labor market and personal income improved. In addition, Japanese companies continued to increase their IT investments. In particular the third platform market, which is a new market that covers cloud services, big data, the Internet of things and other components, is expected to continue to grow steadily and reach annual sales of about 15 trillion yen in 2021 (according to "Japan Third Platform Market Forecast Update by Vertical Market and Company Size" by IDC Japan, a company specializing in IT industry surveys, 2017 to 2021).

The COMTURE Group is taking many actions for more growth with emphasis on the digital transformation domain, which is a growing category of IT investments by companies. Due to these activities, there was significant growth in the Group's cloud, big data and artificial intelligence businesses and the enterprise resource planning (ERP) business, which involves core systems used for business operations. Robotic process automation (the use of software robots to automate business processes) and the Internet of things, which are new business domains at the COMTURE Group, also contributed to growth. As a result, there was growth in all four business units: Groupware Solutions, ERP Solutions, Web Solutions and Network Services. Sales in the first nine months increased for the ninth consecutive year and rose to an all-time high.

Profit attributable to owners of parent increased for the seventh consecutive year and also reached an all-time high for the first nine months of a fiscal year. One reason was higher sales per employee resulting mainly from the growth of consulting operations backed by measures to strengthen the ability to create proposals for customers, improve the quality of services, raise productivity, and upgrade skills involving proposals and capturing new orders beginning with upstream processes. Earnings also benefited from the rigorous oversight of processes used for estimates and project management to eliminate unprofitable activities, an improvement in efficiency due to a merger, and a reduction in administrative expenses resulting from the sale of a consolidated subsidiary.

In the first nine months, the COMTURE Group performed as follows.

Net sales: 13,025 million yen (up 7.5% year-on-year)

Operating profit: 1,894 million yen (up 36.9% year-on-year)

Ordinary profit: 1,903 million yen (up 35.3% year-on-year)

Profit attributable to owners of parent: 1,262 million yen (up 21.4% year-on-year)

Business segment performance was as follows.

1) Solution Services

The performance of the Solution Services segment benefited from a number of favorable trends. In the core cloud business, demand for call center, omni-channel systems and other services is increasing. In the big data and artificial intelligence businesses, there is increasing demand for demand forecasting, money laundering prevention systems for financial institutions and other services. In the ERP business, there is growth in services for the installation and use of new systems. In the robotic process automation business, sales were higher for clerical systems that automate data input tasks and for other products. As a result, sales increased 7.2% year-on-year to 8,514 million yen and operating profit increased 59.9% to 1,355 million yen.

2) Product Sales

A reexamination of the structure within the COMTURE Group used for selling products caused a drop in sales outsourcing expenses and other internal transactions. As a result, sales decreased 71.8% year-on-year to 32 million yen and operating profit decreased 98.2% to 1 million yen.

3) Network Services

This segment is taking many actions to shift its focus to growing market sectors and add more value to its business. Two important sources of growth are the cloud environment construction business, which assists customers move to the cloud, and the remote surveillance business for services after a customer's transition to a cloud environment. As a result, sales increased 9.8% year-on-year to 4,676 million yen and operating profit increased 14.9 % to 541 million yen.

(2) Explanation of Financial Position

Total assets were 8,868 million yen at the end of the third quarter, 268 million yen more than the end of the previous fiscal year. This was attributable mainly to increases of 142 million yen in cash and deposits and 124 million yen in notes and accounts receivable-trade, a decrease of 108 million yen in goodwill due to amortization, and increases of 53 million yen in inventories and 28 million yen in tools, furniture and fixtures.

Liabilities decreased 579 million yen to 3,148 million yen. This was mainly attributable to decreases of 218 million yen in income taxes payable, 215 million yen in provision for bonuses, and 173 million yen in accrued expenses.

Net assets increased 848 million yen to 5,720 million yen mainly because profit attributable to owners of parent was more than dividend payments due to the strong fiscal year performance.

(3) Explanation of Consolidated Forecast and Other Forward-looking Statements

There are no revisions to the full-year consolidated earnings forecasts for the fiscal year ending March 31, 2019 that was announced in the "Notice of Revisions to Earnings Forecasts" (Japanese version only) on December 18, 2018.

The above forecasts are based on judgments made in accordance with information available to management at the time this report was prepared. Actual results may differ from these forecasts for a number of reasons.

Issuance of share acquisition rights

In accordance with a resolution approved by the COMTURE Board of Directors on December 18, 2018, COMTURE used a third-party allotment to issue on January 10, 2019 its second series of share acquisition rights with a provision for a revision to the exercise price. COMTURE can stipulate when the rights are exercised and when the rights cannot be exercised.

The payment for the share acquisition rights was received on the issue date and the share acquisition rights were distributed on the same day.

Third-party Allotment of No. 2 Share Acquisition Rights with Exercise Price Revision Provision and Provision for Designated Exercise of Rights and Exercise Suspension

101	Designated Exercise of Tagints and Ex	tereise suspension
(1)	Issue date	January 10, 2019
(2)	Number of share acquisition rights	13,000
(3)	Type and number of shares subject to share acquisition rights	1,300,000 shares of the Company's common stock
(4)	Issue price	930 yen per share acquisition right (Total amount 12,090,000 yen)
(5)	Number of dilutive shares after the	1,300,000 shares (100 shares per share acquisition right)
	issuance of share acquisition rights	There is no maximum exercise price.
		The minimum exercise price is 2,764 yen. The number of dilutive shares remains to be 1,300,000 shares for the minimum exercise price.
		COMTURE plans to use treasury shares (currently 1,485,583 shares) to provide shares when share acquisition rights are exercised.
(6)	Exercise price and conditions for	Initial exercise price: 2,764 yen
	revision	Starting on January 16, 2019, the exercise price is revised to 92% of the closing price of COMTURE common stock on the Tokyo Stock Exchange on the trading day before the day that COMTURE receives notification of a request to exercise one or more share acquisition rights. However, the exercise price cannot be less than the minimum exercise price.
