#### 1. Qualitative Information on Quarterly Consolidated Financial Performance

#### (1) Explanation of Results of Operations

During the first quarter of the fiscal year ending March 31, 2018, the Japanese economy was supported by a recovery in corporate earnings and improvements in jobs and personal income. But the outlook is unclear because of new directions in U.S. policies, political events in Europe and other reasons. IT investments, which have a significant effect on the operations of the COMTURE Group, continued to grow. These investments are essential for the mid- to long-term growth of all companies and expenditures are particularly strong in the cloud services category. The third platform market, which is a new market that covers cloud services, big data, the Internet of things and other components, is expected to expand significantly to annual sales of about 14 trillion yen in 2020. Within this market, the cloud IT services sector is forecast to grow at an average annual rate of 41.1% between 2016 and 2021. Both forecasts are according to "Japan Third Platform Market Forecast Update by Vertical Market and Company Size" and "Third Platform Market IT Services Market Forecast" by IDC Japan, a company specializing in IT industry surveys.

Due to numerous activities for expansion of the cloud business throughout the COMTURE Group, there was growth in all four business units: Groupware Solutions, ERP Solutions, Web Solutions and Network Services. Furthermore, there was a big contribution to growth from activities to make big data, artificial intelligence, the Internet of things, financial technology and other new technologies and fields additional drivers of growth.

Focusing on transforming needs into solutions is playing a central role in our growth. People who interact with customers carefully listen to their demands and interests. Then we use our expertise to respond to our customers' needs with new services and other ideas. A relentless commitment to adding more value, improving productivity and supplying outstanding quality also define our operations.

In the first quarter, the COMTURE Group performed as follows.

Net sales: 3,820 million yen (up 27.9% year-on-year)

Operating profit: 280 million yen (up 4.1% year-on-year)

Ordinary profit: 282 million yen (up 5.1% year-on-year)

Profit attributable to owners of parent: 173 million yen (down 3.1% year-on-year)

First quarter sales were higher than one year earlier for the seventh consecutive year. There were several reasons for this accomplishment: higher cloud business sales as the cloud market expands rapidly; an increase in orders in the financial sector; and activities targeting big data and other new technologies. Growth in personnel expenses and other expenses was offset by the increase in sales per employee, the result of the constant implementation of our added-value strategy, and higher earnings associated with the larger scale of business operations. However, profit attributable to owners of parent decreased 3.1% from one year earlier because of an increase in income taxes.

Business segment performance was as follows.

#### 1) Solution Services

Sales increased 17.0% year-on-year to 2,461 million yen mainly because of growth of the cloud business as the cloud market continues to expand and increasing customer needs involving big data, artificial intelligence, the Internet of things and other fields. In part because of substantial investments in employee training programs, operating profit decreased 9.4% to 153 million yen.

#### 2) Product Sales

Sales of Salesforce.com licenses continued to increase along with growth of the cloud business. However, sales decreased 1.5% year-on-year to 38 million yen and operating profit was down 1.3% to 15 million yen because of revisions in the prices of some products.

#### 3) Network Services

The performance of this segment was strong because of numerous measures for adding more value to platform solutions for customers' transitions to the cloud, remote surveillance and other activities. In addition, a subsidiary newly consolidated in the third quarter of the previous fiscal year made a big contribution to segment sales growth. As a result, sales increased 51.0% year-on-year to 1,371 million yen and operating profit increased 32.2% to 111 million yen.

#### (2) Explanation of Financial Position

Total assets were 7,136 million yen at the end of the first quarter, 148 million yen less than the end of the previous fiscal year. This was attributable mainly to decreases of 255 million yen in notes and accounts receivable-trade and 62 million yen in goodwill, while there was an increase of 174 million yen in cash and deposits.

Liabilities decreased 212 million yen to 3,189 million yen. The main reasons were decreases of 34 million yen in the current portion of long-term loans payable, 164 million yen in accrued expenses and 154 million yen in income taxes payable.

Net assets increased 63 million yen to 3,947 million yen. The payment of dividends of surplus reduced retained earnings but profit attributable to owners of parent increased retained earnings.

#### (3) Explanation of Consolidated Forecast and Other Forward-looking Statements

At this point, there are no revisions to the first-half and full-year consolidated earnings forecast for the fiscal year ending March 31, 2018 that was announced in the "Summary of Consolidated Financial Results for the Fiscal Year Ended March 31, 2017 (Japanese GAAP)" on May 1, 2017.

The above forecasts are based on judgments made in accordance with information available to management at the time this report was prepared. Actual results may differ substantially from these forecasts for a number of reasons.

#### Sales of shares of subsidiary

On July 31, 2017, the COMTURE board of directors approved a basic agreement for the sale of all of the stock of COMTURE consolidated subsidiary JMode Enterprise Co., Ltd. to Information Environment Solutions Co., LTD. This agreement was signed by both companies on the same day.

#### (1) Reason for sales of JMode Enterprise

Established in 1995, JMode Enterprise is a provider of cloud services for sales management, inventory management and other activities in the fashion industry.

Recently, the rapid contraction of Japan's apparel market has produced changes in JMode Enterprise's operating environment that occurred faster than expected.

Information Environment Solutions has a business network in China that has the potential to be useful for the operations of JMode Enterprise in China.

For these reasons, COMTURE decided that the best course of action is to sell JMode Enterprise to Information Environment Solutions at a price that is higher than COMTURE's acquisition cost rather than aim for the initially expected synergies with JMode Enterprise when this company was acquired. As a result, all three companies reached an agreement to go ahead with this transaction.

#### Stock split and revision to Articles of Incorporation following the split

On July 31, 2017, the COMTURE board of directors approved a resolution for a stock split and an associated revision to the Articles of Incorporation.

#### (1) Purpose of the stock split

Using this split to lower the cost of an investment unit of COMTURE stock will make this stock accessible to a broader range of investors. This is expected to increase the stock's liquidity and expand stock ownership to more investor segments.

#### (2) Summary of the stock split

#### 1) Method of the stock split

Shareholders listed in the final shareholder register on the record date of September 30, 2017 (effectively September 29, 2017 because the record date was a holiday for the transfer agent) will receive three shares of common stock for each share held on the record date.

2) Increase in the number of shares due to the stock split

Total number of shares outstanding before the stock split: 5,355,900 shares Increase in the number of shares due to the stock split: 10,711,800 shares Number of shares outstanding after the stock split: 16,067,700 shares Number of shares authorized after the stock split: 52,200,000 shares

Note: The number of shares outstanding and increase in the number of shares are based on the number of shares outstanding on July 31, 2017. The number of shares outstanding may increase prior to the stock split record date due to the exercise of stock acquisition rights.

#### 3) Schedule

Announcement date: September 15, 2017

Record date: September 30, 2017 (effectively September 29, 2017)

Effective date: October 1, 2017 4) Effect of these changes on per share information
